CRO 9070 has great manoeuvrability, thanks to a balanced weight distribution. It is equipped with variable brush pressure which can reach up to 63 kg. With its robust structure, it can deep clean efficiently. It comes with detergent control and auto stop feature. Detergent flow stops and starts upon traction pedal being activated. Low noise feature makes the machine suitable for daytime cleaning even in noise-sensitive applications. Noise level is as low as 60 dBA. Equipped with 2 stage high suction and SUPER SILENT vacuum motor.

CRO 9070
